I joined the U.S Army in November of 2013. After completing basic training and advanced individual training I reported to my duty station in Ft. Humphreys, South Korea. I was assigned as an AH-64 Apache helicopter mechanic in the 4-2 Combat Aviation Battalion of the 2nd Infantry Division. I was expected to complete minor to major repairs on my assigned aircraft in adequate amount of time without mistakes, to include repairing AH-64D Longbow aircraft in accordance with Army guidelines and policy, completing numerous 125 hour and 250 hour inspections as well as completing scheduled replacements of gearboxes, rotor head, blade, engines, and transmissions. On many occasions I rigged engines, horizontal stabilizers, and flight controls. I was assigned to maintenance platoon for two years while serving in the military. At no time have I ever been under investigation or received an article 15 for any behavior for any reason. For one year I was assigned as an ALSE (Aircraft Life Support Equipment Technician)

Professional experience

Engineering Technician:

Working currently as engineering tech at Samsung Austin Semiconductor.

AH-64D helicopter maintainer:

- Performed periodic and special inspection on the AH64D/E aircraft systems.
